

TECHNICAL SPECIFICATIONS

- 16 mm polyester kernmantel rope
- Construction: 16 strands
- Double braid
- Sheath : 50%
- Core : 50% - Spliced on one end
- Static resistance 5920 daN

Available in 40 m, 50 m, 60 m

USE

This kernmantel rope is intended for tree climbing works.

DESCRIPTION

This 16 mm kernmantel rope is designed for dismantling. The combination core-braided sheath has been upgraded for the soft running of the pulleys and a better flexibility. It is spliced in one termination.
