INDUSTRIAL SAFETY HELMET

TECHNICAL SPECIFICATIONS

- External shell : ABS
- Weight : 340 g
- Size : Unique - from 54 to 61 cm
- Temperature of use : from -10 to +50°C

DESCRIPTION

PEGASO WORK is a highly comfortable ventilated work helmet designed to protect the user from falling objects in industrial environments (work at height, construction, etc.). Its internal foam on the textile liner and its headband are comfortable, washable, replaceable, and benefit from **Sanitized®** technology. The 8 meshed vents ensure maximum ventilation of the head. The **EASY TURN 3D** adjustment allows for precise and multi- position fitting of the nape strap while ensuring an excellent fit on the head. Its resistant and adjustable chin strap features a quick-release system designed to open in the event of an impact (between 150 and 250 daN). The **PEGASO WORK** helmet includes multiple clips for accessories and adapters are allowing the attachment of earmuffs.

FEATURES

- | | |
|---|--|
| <p>1</p>  <p>AIR INTAKES PROTECTED BY METAL MESH
PEGASO maximizes ventilation with 8 air intakes, optimizing the incoming/outgoing airflow for exceptional helmet ventilation.</p> | <p>2</p>  <p>COOLMAX FOAM
The breathable and comfortable internal pads are fully washable and incorporate Sanitized® treatment.</p> |
| <p>3</p>  <p>ADJUSTMENT WHEEL
The micrometrical adjustment wheel allows a quick adjustment of the helmet.</p> | <p>4</p>  <p>EASY TURN 3D
The EASY TURN 3D positioning system ensures vertical/horizontal adjustment for a perfect helmet fit.</p> |
| <p>5</p>  <p>VISOR ATTACHMENT SLOTS
