PROTECTIVE VISOR

TECHNICAL SPECIFICATIONS

- **Material** : Polycarbonate
- **Weight** : 90 g
- **Optical class** : 2
- **Protection against high-velocity particles**

DESCRIPTION

PEGASO VISOR is a protective visor against projections. It fits all PEGASO helmets. Easy to install, the attachment system is included and allows height adjustment. Its anti-scratch and anti-fog treatments make it a comfortable and durable accessory.

CLEAR

TECHNOLOGIES

ANTI-FOG

Treatment of the visor to resist condensation buildup.

ANTI-SCRATCH

Anti-scratch treatment that enhances the durability and longevity of the visor.

DRIP PROOF

The upper edge of the visor features a rubber seal that prevents moisture from entering the inside of the helmet.

CUT-RESISTANT

The lower edge features a rubber seal to protect the user during visor handling.

HIGH-SPEED PARTICLE PROTECTION

PEGASO visors are shielded against high-speed particle projection.
