  - 9 • Identification pouch
- Static resistance  $\geq$  15 kN  
 • Weight : 1,20 kg  
 • **RECYCLED** box / **100% RECYCLABLE** guaranteed **WITHOUT PLASTIC**

## DESCRIPTION

The **H2'O®** full body harness is the **1<sup>st</sup> French harness** manufactured with **recycled materials**, including 2 fall arrest attachment points: 1 in the front with textile loop and 1 in the back with metallic D ring. It is an innovative harness with its anti trauma buckles on legs which reduces the arrest force in case of a fall. It is fitted with automatic buckles on chest and leg straps. Available in 3 sizes it can be easily adjusted by pulling downwards the shoulder straps through the quick buckles .

## USE

Full body harness to use in case of fall hazard. Intended to maintenance works in industry and the construction area.
